**GREEN TIPS****Week Commencing Sunday 13<sup>th</sup> November**

Have you switched on your central heating yet? If so, have you also tried bleeding your radiators? Bleeding radiators can release any trapped air which may be preventing them from working efficiently. This means that you'll be able to keep warm without paying as much to heat the water.

**Week Commencing Sunday 20<sup>th</sup> November**

Do you ever buy a takeaway coffee when you're out? If so, think about how many disposable coffee cups you're using and perhaps think about buying a reusable mug, which can be reused time, after time, after time!
